

GOD'S MASTERPIECE

BY RENEE INGRAM

SACRED HEART, MT DRUITT

CREATED IN BLIGH PARK

God made all
So beautiful is this world, our life, the gift of breath to all.
The beauty bestowed upon our eyes to see
For our minds to wonder and conceive.
The gift of creation, the season of life. When the earth is returned to abundant
life. The wonderment of life at its best. God's masterstroke is right there if you
make the time to look and digest. All that is there, all that we have.
No fear is needed, there is enough, God will provide we need to trust.
We know God's will, God's word, God love
We live this life with earth abound
Full of abundance all to be found.
Enough for all if we only believe,
As our bread of life Jesus Christ came to be,
For the salvation of all, saved; sinners no more.
So why do we use, and take and hoard this earth belongs to us to all.
We all our have our place, our role to play.
God put us here with a purpose in place.
Please don't forget how precious earth is. The creation of which was made
from love for us, for all, from our loving God.
Let's show love and our gratitude
As earth is our home, that we all share
let's love it together let's show God we care.
